

## ANICC Statement

Dear All,

Please see the statement below:

As I'm sure you are now fully aware Motorsport UK have now suspended all permits and Certificates of Exemption to at least April 30th. The ANICC supports Motorsport UK in this decision to protect the most vulnerable in society and to ensure we do not put further strain on the NHS that it will face during this period.

At the same time, we sympathise with every organiser who has had to make the difficult decision to postpone or cancel over the coming weeks.

The ANICC will also have to make difficult decisions in the coming weeks. A number of events are looking to re-schedule to a date later in the year, we will where possible help with these requests. As there will be a number of club's wishing to change dates, in the interest of fairness and to preserve our regional Championships we will be dealing with the requests accordingly. The ANICC are postponing the scheduled Association Council Meeting due to take place tonight and if there is opportunity to fit in a meeting of the ANICC Council Members we will endeavour to do so.

Please keep us informed of any changes planned, we can still convene teleconferences to discuss ANICC business.

Henry Campbell

ANICC Chairman
